## CALL FOR PAPERS FOR JOURNAL OF MEDICINAL PLANTS RESEARCH (JMPR) 2010 SPECIAL ANNIVERSARY REVIEW

Medicinal plants produce bioactive compounds used mainly for medicinal purposes. These compounds either act on different systems of animals including man, and/or act through interfering in the metabolism of microbes infecting them. The microbes may be pathogenic or symbiotic. In either way the bioactive compounds from medicinal plants play a determining role in regulating host-microbe interaction in favour of the host

The Journal of Medicinal Plants Research wish to invite scientists and researchers in all areas of Medicinal Plants Research to submit their review articles for the **2010 SPECIAL ANNIVERSARY REVIEW**

The reviews and perspectives should be in the author's area of research or specialization. Prospective authors should submit their manuscripts on or before **30th September, 2010**.

Articles should be forwarded to:
